

Who We Are

WHO IS PREMADE..?

Premade Innovations Pvt. Ltd. is a forward-thinking technology company committed to crafting intelligent, user-centric, and scalable digital solutions. Our mission is to automate and optimize business operations through tailor-made software, mobile apps, automation systems, and workforce tools.

VALUES

To be recognized as a global leader in customized digital innovation, helping businesses of all sizes embrace technology that simplifies operations and fuels sustainable growth.

We aim to democratize access to smart, scalable solutions that future-proof businesses and set new benchmarks in performance, automation, and user experience.

MISSION:

To empower organizations with technology that goes beyond functionality—tools that are intuitive, efficient, and purpose-built. Our mission is to:

- Streamline complex workflows with intelligent automation
- Improve decision-making through real-time data access
- Deliver user-focused experiences that maximize engagement

Core Values

Innovation-First Thinking

We explore what's possible before settling for what's expected.

User-Centric Design

Every solution is built with the end-user in mind for ease of use and adoption.

Scalable Technology

Our systems grow with your business, from startup to enterprise.

Cost-Effective Implementation

High value, minimal overhead — smart investments for long-term ROI.

Industry-Specific Solutions

We tailor software for real estate, FMCG, banking, retail, and more.

Our Core Services

Software Development

We build customized software that fits your unique operational needs—be it automation, real-time controls, or advanced analytics. Every product is crafted to boost productivity, reduce human error, and scale effortlessly as your business grows.

Web Application Development

Our high-performance web applications offer seamless navigation, mobile responsiveness, and cloud integration. Perfect for internal systems, customer dashboards, CRMs, or ecommerce platforms.

Mobile App Development

Deliver powerful experiences on the go. We create secure, scalable mobile apps for Android and iOS, with intuitive interfaces that enhance user engagement across B2B, B2C, and in-house operations.

Simplifying Complexity with Tailored Tech.

Kiosk Application Development

Ideal for ATMs, CDMs, vending machines, ticketing, and self-service counters—our kiosk apps simplify user interaction while ensuring secure and smooth transactions in unattended environments.

Digital Marketing Services

Our digital marketing suite includes SEO, social media strategy, Google/Facebook Ads, performance analytics, and brand positioning. We help businesses grow their online presence and generate quality leads through result-oriented digital campaigns.

Premade eSurv Surveillance

Premade eSurv – Smart Surveillance & Safety Systems
24/7 protection with intelligent, integrated solutions for homes, offices, and institutions.

- CCTV Surveillance: HD/IP cameras with remote access and motion alerts.
- Fire Alarms: Early detection with real-time notifications.
- Burglar Alarms: Instant intrusion alerts and 24/7 monitoring.
- Smart Security Systems: Automated access control and centralized monitoring.

WHY CHOOSE PREMADE INNOVATIONS?

At Premade Innovations, we understand the unique challenges businesses face in a rapidly evolving digital landscape. Our goal is to empower organizations with reliable, tailored tech that accelerates growth, streamlines operations, and keeps them ahead of the curve.

Customer-Centric Approach

We believe that no two businesses are the same. Every solution we design is aligned with your goals, workflow, and challenges — making us not just a vendor, but a growth partner.

Innovative Solutions

We bring cutting-edge tools and the latest technology stacks to your doorstep — combining cloud, IoT, mobility, and automation in ways that deliver measurable impact.

Proven Expertise

Our experienced developers, designers, and strategists bring deep industry experience, agile development methodologies, and a commitment to delivering excellence, every time.

Strategic Partnerships

Our collaboration with eSurv enhances our offerings with enterprise-level surveillance and analytics systems — giving you end-to-end control from workforce to operations to security.
